Subject: FW: federal register notice on EPA proposal

Hello Lindsay:

I received your voice mail message. The Dept. of Ecology found out about the Draft Permit through our Olympic Coast Sanctuary Advisory Council Member, see the e-mail chain below.

Hi Marc,
Here is what I received from Vince McGowan upstairs.

Subject: RE: federal register notice on EPA proposal

Hi Vince,
No, I was not aware of this permit. I'm not concerned since reading the fact sheet it applies only to Federal Waters, from 3 to 12 nautical miles (beyond state authority). The fact sheet also says they believe 20 vessels exist.

Steve

I was not aware of this draft permit. I have been working with EPA on the Tribal Net Pen General Permit and their draft Upland Hatchery General Permit.

Hi Jennifer

Short answer is I'm not sure if we have anyone tracking this or not. I've cc'ed folks who might know more.

Hi Bill,

Is someone in the Water Quality Program/NPDES permits involved with or tracking the EPA Draft General Permit on at-sea food processors at all? My understanding is it is to address the Pacific Whiting fleet operations off our coast. See below and attached for details.

Thanks,
Jen

Subject: federal register notice on EPA proposal

Hello council members,

Please find a brief description with link to website for EPA proposal (attachment included):

EPA Proposes General Permit for Offshore Seafood Processors

On August 24th, the EPA notified the public of a proposal to issue a general National Pollutant Discharge Elimination System (NPDES) permit for Offshore Seafood Processors discharging in federal waters off the coasts of Washington and Oregon. This proposal would include the waters of the Olympic Coast National Marine Sanctuary (sanctuary). While discharges are prohibited within the sanctuary, there is an exemption for certain discharges related to fishing activities. The EPA conducts this type of permitting under the authority of the Clean Water Act. Sanctuary staff is currently reviewing the proposal for potential impacts to sanctuary resources. EPA has posted information related to this proposal at

<http://yosemite.epa.gov/r10/water.nsf/NPDES+Permits/DraftPermitsORWA>

Thanks much,
~Karlyn
